

Delta Dental Mobile

Cost Estimator

Know what to expect at your next dental appointment with our dental care cost estimator. This tool provides estimated cost ranges on common dental procedures, now with the option to select your dentist for tailored cost estimates.

Delta Dental Cost Estimator

To download the Delta Dental mobile app, visit the App Store (Apple) or Google Play (Android) and search for Delta Dental. Then follow the steps to estimate your next dentist visit.

1. Access the cost estimator from the landing page or through the menu icon at the top left of the app.
2. Enter your zip code and select from the list of treatment categories.
3. If you are looking for a specific dentist, enter their name and select “to receive estimates based upon this dentist’s fees.” You can later select saved dentists from your “preferred dentist” list.
4. Touch “Get Cost Estimate.”
5. Your estimate is broken down by individual procedures (where applicable) and includes a total for the entire treatment.

- In-network and out-of-network estimates are displayed.
- If you have selected a dentist by name, you will see the actual cost charged by that dentist and a range of what you may pay if you visit an out-of-network dentist.
- Estimates reflect actual fees charged by dentists within three digit zip codes or by the selected dentist.
- Cost estimates do not reflect co-pays, co-insurance or deductibles as outlined by your plan design. To determine what you will pay, refer to your plan details or talk to your dentist.

Not using a mobile device? Cost estimates are also available on the Delta Dental of Virginia website. Log into DeltaDentalVA.com/members to use our cost estimator tool.
