Hanover County Digital Equity

Hanover County supports the concept of digital equity, which refers to whether people can access and effectively use the technology necessary to participate in modern society.

Hanover County Schools have deployed devices to all teachers in support of on-line education. In addition, Schools have purchased and deployed mobile tablet devices to all students. They have also deployed MiFi devices to those students with the biggest need.

Hanover County is a member of the Pamunkey Regional Library system. The Library has a full digital literacy program that includes providing public wireless, mobile hotspots, and other mobile services (printing, etc.). Six library branches are located in the County each with adequate internet service (40 Mbps – 100 Mbps). The Library has distributed MiFi devices for specific citizens.

Hanover County used Cares Act funding to establish public wireless internet access at public buildings. This program included placing wireless access points at 7 locations across the County with public access to internet services. Look for the Public WiFi signs at these locations:

- Poor Farm Park
- Pole Green Park
- Taylor Park
- Courthouse Park
- Montpelier Community Center
- Fleet Services Building (Lakeridge)
- County Government Center (main front parking lot)
